Consilium has been helping organisations with their IT issues since 1998. We help them to improve their business processes by making the best and smartest use of their IT resources

WHO ARE CONSILIUM?

Consilium have been servicing customers in Scotland and beyond since 1998. Certified to the highest levels with vendors such as Microsoft, VMware, Citrix and many more we offer IT Support, Security, Cloud, Telephony and Consulting Services specialising in delivering IT security and easy anywhere/any device access to IT services for users.

WHAT WE CAN OFFER SFHA

As a new associate member of SFHA we have put together some offers tailored to SFHA members that may appeal particularly in these challenging times?

10% saving on Office 365 - Consilium are offering Housing Associations 12 months off their Microsoft Office 365 costs over the next 12 months with no annual commitment

Office 365 Backup Trial - Backup for Microsoft Office 365 gives you the power to securely backup Office 365 to any location, including on premises, a hyperscale cloud, or a service provider

FREE Security Audit - A range of free services to look at your security posture. This can cover a number of areas of your choosing:

- *Check what you users are doing on the network*
- *See what data is being accessed and where it is going*
- *A phishing test to see if users will give up their passwords*
- *Check your PC's and Servers are up to date and malware free*

"Their pragmatic approach to IT helps deliver maximum impact for expenditure. They always provide compelling ROI proposals and are an ideal sounding board. They provide the exceptional IT skills that we can't afford to support internally but need on an adhoc basis." - **Iain Forrester, IT Manager, Citizens Advice Scotland**
